

**Angela Musella's Report (cont.):**

In October getting ready for Hurricane Joaquin, I had many conference calls on preparing municipalities in case the hurricane hit. After which, I feel we need to have food establishments on an email list, to get immediate messages out to these establishments, on for food preparedness, in case something did happen.

I updated the Public Health Annex of the Emergency Management Plan for Dobbie Burgio, OEM Coordinator. I also answered Dobbie's questions on other sections of her report, and gave her some guidance.

During the two months to keep up with the day to day of the Borough with Darlene & Linda.

**Spence Engineering's Report:** (September's Report, emailed to members)

**Old Business:** Flu Clinic scheduled for October 21, 2015,  
(35 Flu Vaccines - 16 residents & 19 employees)  
Next year we should try and get the stronger vaccine.

**New Business:** \*Contract for NorthWest Bergen was introduced by Dr. Carpenter, Seconded by  
Stafford Patentas, and all in favor.  
\*Budget for 2016 was introduced by Dr. Carpenter, Seconded by Dr. Parker, and  
all in favor. (Missing 2016 Animal Control Contract)  
\*Passing to CMFO and then to Mayor & Council

**Open to Public:**

Kathleen Braheney, Saddle River Resident, had a few concerns regarding the deer matter.  
In both presentations of the Wild Life Commission, both sides want facts (tracking records):  
Important to consider:

1. How many accidents caused by deer? Answer: Police Reports.
2. How much of an increase in Lyme disease? Answer: BOH has track of Lyme disease.
3. Deer Population is greater than it should be, how do we know what is should be?
4. Wild Life Commission said that deer carry the ticks, so ticks are the only problem?

**Bills:** Health Officer (Quarterly), Valley Health Nursing, and Animal Control (Monthly)

**Adjournment**
